STRUCTURAL INSULATED PANELS

A PERFORMANCE signed Prestige Panel

SINCE 2005

We are a Structural Insulating Panels (SIP) manufacturer located in Victoriaville, (QC). The expertise acquired over the years allows us to offer one of the most innovative and efficient product in the construction industry.

PROPERTIES AND ADVANTAGES

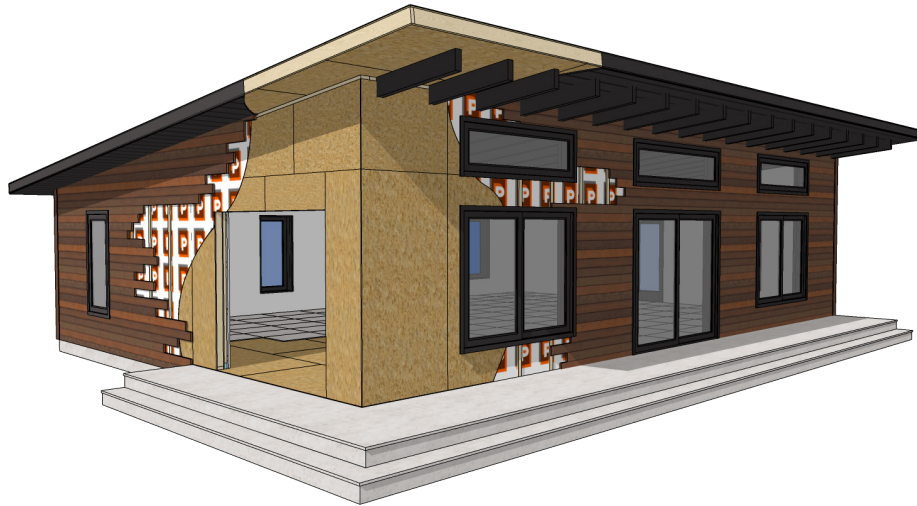

Versatile, the Prestige Panel SIP adapts to your various construction projects. Manufactured under pressure, our structural insulated panel is composed of 2 sheets of OSB and polyisocyanurate which makes it extremely efficient. A version with plywood sheets is also available on order.

- Superior mechanical strength up to **8X STRONGER** than wooden frames
- High-performance insulation = energy-efficient construction
- Quick and easy installation
- Outstanding airtightness superior sealing
- No sagging insulation

TYPE OF INSULATION	SERIES 450	SERIES 550	SERIES 650
Panel thickness	4 1/2"	5 1/2"	6 1/2"
Total wall thickness	8 3/4"	9 3/4"	10 3/4"
Panel performance	R-32 40	R-41 50	R-51 04
Total yield of the wall	R-36 35	R-45 45	R-54 99

WALLS | 2 steps in 1!

JUST ASSEMBLE YOUR WALL STRUCTURE, AND AT THE SAME STROKE, IT'S INSULATED.

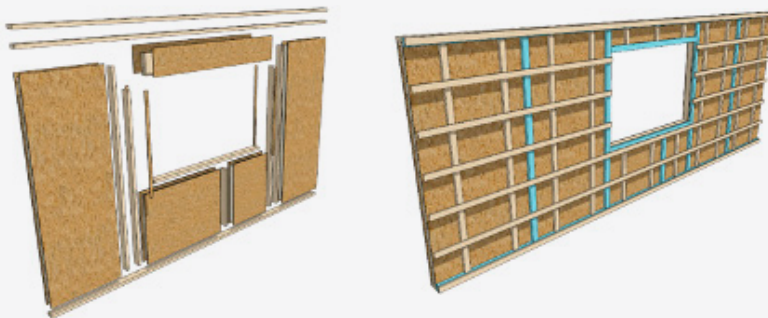

Benefit from speed of execution and superior insulation. Our Structural Insulated Panels are available in several formats (dimensions & thicknesses) to meet your needs.

PROJECTS:

- House
- Multi-unit (3 floors and less)
- Chalet
- Extension
- Light commercial

▶ SIMPLE AND QUICK INSTALLATION

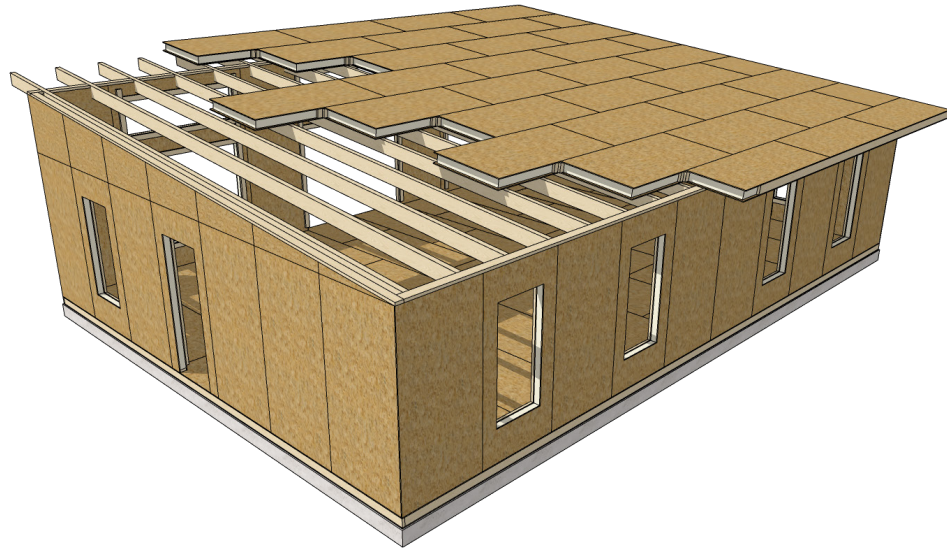

Our product is designed to be use with standard building material. No specialized equipment is required to maneuver our Structural Insulated Panels.

Corner panels available

ROOFING | Not only for walls!

OUR SIP ARE ALSO AN EXCELLENT SOLUTION FOR ROOF INSULATION

With an R-value above the standards, here is quality insurance in terms of insulation and a remarkable gain in energy savings.

PROJECTS:

Visible beams (LVL, glued laminated timber, round wood)

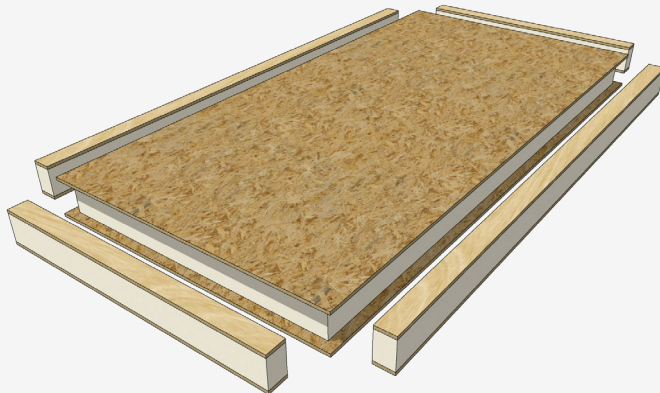

Tiny House

Timber Frame

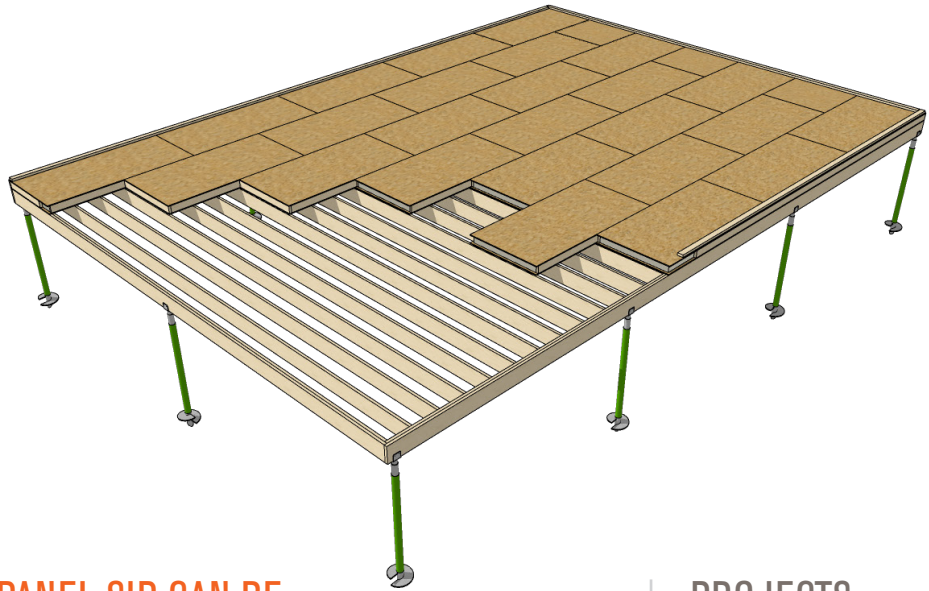

THERMAL BRIDGE EXEMPT!

Our panels are installed using splines in order to completely eliminate thermal bridges.

FLOOR | Because we innovate!

PRESTIGE PANEL SIP CAN BE USED FOR FLOOR INSULATION.

Still a remarkable gain in terms of energy savings!

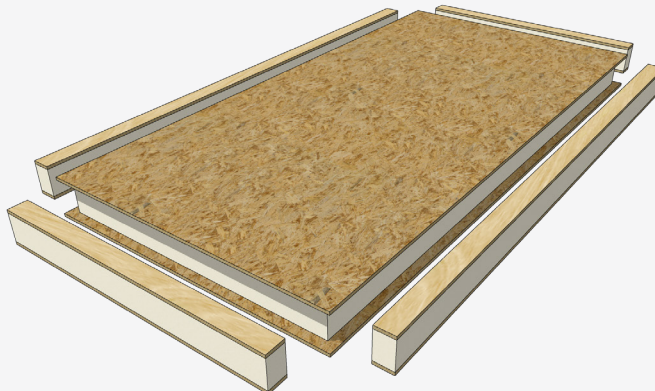

PROJECTS:

House or chalet on piles

Patio or veranda (4 seasons)

THERMAL BRIDGE EXEMPT!

The assembly of the panels, either above or below your floor, using splines, allows to completely eliminate the thermal bridges.

FREQUENTLY ASKED QUESTIONS

WHAT TOOLS ARE NEEDED TO INSTALL THE PRESTIGE PANEL SIP?

• Urethane gun • Urethane rod • Acoustic sealant • Caulking gun • Square • Level • Spindle moulder with 1 ¼ blade and guide
Round saw; • Reciprocating saw; • Crowbar; • Pneumatic nailer; • Compressor with hose • 3" Ø0.12" strip nails; • 2 ½" Ø0.099"
strip nails; • Chalk line or pencil;

WHAT IS THE FINANCIAL SAVING OF USING STRUCTURAL INSULATED PANELS?

Builders save money by reducing labor costs on a project by using SIP panels. With construction 50-65% faster than conventional wood frame construction, builders can quickly move to the next stage of their project. With the high cost of lumber, the great saving of 2x4 between construction with SIP panel and a wood frame construction is more and more noticed.

WHAT DELIVERY METHODS ARE PREFERRED FOR PRESTIGE PANEL SIP?

For efficient picking, platform-type transport (Flatbed) should be preferred. Pickup and delivery can be coordinated by you or by us.

HOW TO OBTAIN PRESTIGE PANEL SIPS FOR A PROJECT?

To obtain more information, have a project quoted and/or schedule a delivery, contact our representatives by phone or email. A distribution network and drop-off point is being developed for the province of Quebec.

WHAT IS THE AVAILABILITY OF PRESTIGE PANEL SIPS?

Our 450 Series panels are usually available within 48 to 72 hours depending on quantity. Our 550 - 650 series panels are usually available within one week depending on quantity and options selected
